You're Invited to the Kawartha Lake Stewards Association 2021 Annual Spring Meeting

When: Saturday, **May 15th**, from 10:00 – 11:00am

Although we'd really love to see you all in person, current COVID-19 conditions require us to hold our meeting virtually by Zoom. You'll be able to chat with us from the comfort of your own home or perhaps your dock! All you need is the Zoom link below.

This will be an opportunity for you to:

- Meet our new board of directors,
- Learn about the many projects we are undertaking this summer,
- Find out where you can pick up our *"2020 Annual Lake Water Quality Report: Two Decades of Kawartha Lakes Stewardship"*,
- Participate in our first ever "Dockside Chat."

Dockside Chat with Dr. Robert Bailey

Bob will talk about his recent work in trying to figure out the ups and down of aquatic macrophytes (the "weeds") in Kawartha Lakes with the help of satellite, drone, and GoPro underwater images. He hopes to eventually suggest management tools to influence the timing and abundance of the native and invasive weeds in our lakes.

Dr. Bailey is currently a Professor in the Faculty of Science at Ontario Tech University, focused on new ways to model biological change in freshwater ecosystems with big data from remote sensing and GIS.
