Let the games begin!!!

Introducing the KLSA Aquatic Plant Contest!!!

Let's have some fun learning about the amazing aquatic plants found in our Kawartha Lakes! When you're on your dock, out in your canoe, or just quietly fishing, look down into the water. What do you see? We want to know!

To participate:

- Download the **iNaturalist app** onto your cell phone.
- Open the app, click on "Projects" and type "**KLSA Aquatic Plant Contest**" in the search bar.
- Click on the "KLSA Aquatic Plant Contest" and then "**Join.**"
- Enter your aquatic plant observations! Entries must include a clear photo.
- There will be a prize for the individual with the most observations and a prize for identifying the most species.
- **Contest runs June 1 to September 1, 2023**

Over the summer KLSA will be posting leaderboard updates, and weekly aquatic plant species profiles on our Kawartha Lake Stewards Association Facebook page!

For more information or if you have any questions, contact Darryl Kotton - darryl.kotton@klsa.info
